

From listing to close

Choose the trusted solution for real estate professionals

Manage, share, sign, and archive your documents wherever you are with the simple, mobile, and secure solution for real estate transactions.

DocuSign for REALTORS® PLUS gives you secure eSignature capabilities, document storage, cloud service integration, and virtual rooms where individual transactions can be organized and shared right from your mobile device or the web. Now real estate professionals have one complete solution for true collaboration from listing to close. It's about getting work done without the paper, and without being tied to the office.

Featuring zipForm® integration

Our integration with zipForm® Plus* by zipLogix® will save you even more time. Simply connect your zipForm® account, and you will be able to quickly access and add forms to your transactions from the web or our mobile apps.

NAR members get DocuSign for REALTORS® PLUS for \$240/year (\$300/year for non-members)

THE COMPLETE SOLUTION

DocuSign for REALTORS® PLUS combines the power of eSignatures and Transaction Rooms to make it easy for you to keep your transactions organized in the cloud, allowing you to work with anyone from your desktop or mobile device.

eSignatures + Transaction Rooms

Collect signatures on the go

Gone are the days of driving across town to print out documents that need to be signed. Sign, send, and manage documents from your mobile phone or tablet through our iOS and Android mobile apps or the mobile web.

Configurable to your needs

It doesn't matter if it's a PDF or a Microsoft Word doc, our eSignature solution can handle any kind of file type. You also can create reusable templates, and **DocuSign for REALTORS® PLUS** is integrated with zipForm® Plus*, so you don't even need to identify where your clients need to sign, initial, or date the documents—it's already done for you.

Integrated fax-back and inbox

With a **DocuSign for REALTORS® PLUS** plan, you'll receive an inbound email address and personal fax number. Any document sent to your inbound email address or fax number will be automatically added to your Inbox in DocuSign.

Trusted and secure

Your documents, transactions, personal data—and your clients'—are safe and secure. **DocuSign for REALTORS® PLUS** was built using bank-level security standards and technology. Electronic signatures are legally binding in the United States and in most countries around the world, and DocuSign ensures the highest levels of enforceability. Supporting digital certificates as required, only DocuSign warrants federal E-SIGN and UETA Act compliance.

A better way to store and manage

With **DocuSign for REALTORS® PLUS**, you can store and manage documents within a virtual room specific to an individual transaction. If you have files saved in cloud services like Google Drive or Dropbox, you can easily copy them into your Transaction Room.

Invite and share with ease

Invite everyone involved in the transaction to join its Transaction Room to allow for better collaboration during and after a deal. Document sharing is simple, and you get to decide who can access a file within the room.

Get an instant overview

View detailed activity information for each transaction document, and monitor the progress of any eSignatures you've requested. Your Transaction Rooms allow you to stay on top of all of your transaction statuses and can help increase your efficiency. You also can set up text or email notifications.

Add a personal touch

A little something extra can go a long way. Associate your brand to your transactions, and present a professional image to those you work with through **DocuSign for REALTORS® PLUS** by including your logo and photo in every Transaction Room.
