

Adding a widget

To use any of the NAR widgets on your site, start by clicking the "+ Add this widget to your page" button under the main graphic.

[+ Add this widget to your page](#)

You will be given the option of placing the widget on a social network or blog page, or on your website.

To embed the widget on a social network or blog page, click on the icon for that site. The sites currently supported are: Yahoo, My Space, Facebook, Friendster, Orkut, Bebo, Tagged, Blogger, Live Spaces, Freewebs, LiveJournal, MyYearbook, Vox, Typepad, Xanga, Multiply, iGoogle, Netvibes, Pageflakes, MiGente, Ameba, Livedoor, and Eons

To embed the widget on your website, copy the "Embed Code" script and paste it into your webpage code.

An Email button is also provided if you would like to send the widget to your technology person for placement on your site.
