

Bringing Real Economic Change Back Home

Our leaders in Washington deserve thanks for supporting common-sense solutions that will stimulate our local economy.

Now, homebuyers may qualify to receive an \$8,000 tax credit. This new law will help to stabilize America's economy, revitalize neighborhoods and restore Maine's home values.

Benefits of the \$8,000 tax credit:

- First-time homebuyers or purchasers who have not owned in 3 years qualify
- Home must be bought between Jan. 1, 2009 and Dec. 1, 2009
- The \$8,000 credit will either offset taxes you owe or trigger a refund on your tax return
